

Solar analysis report

Project whatever

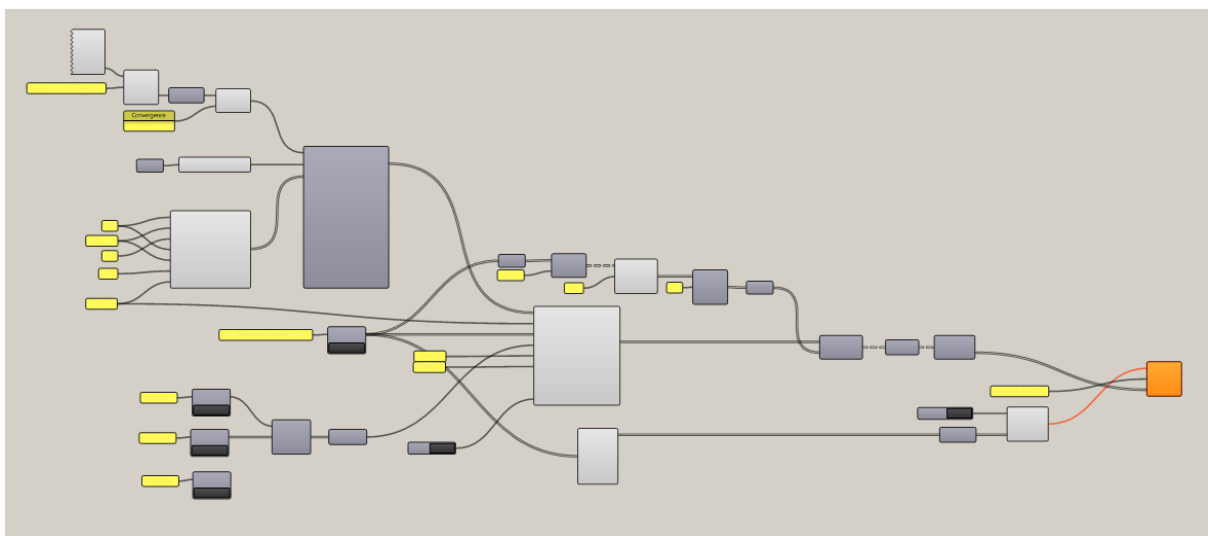

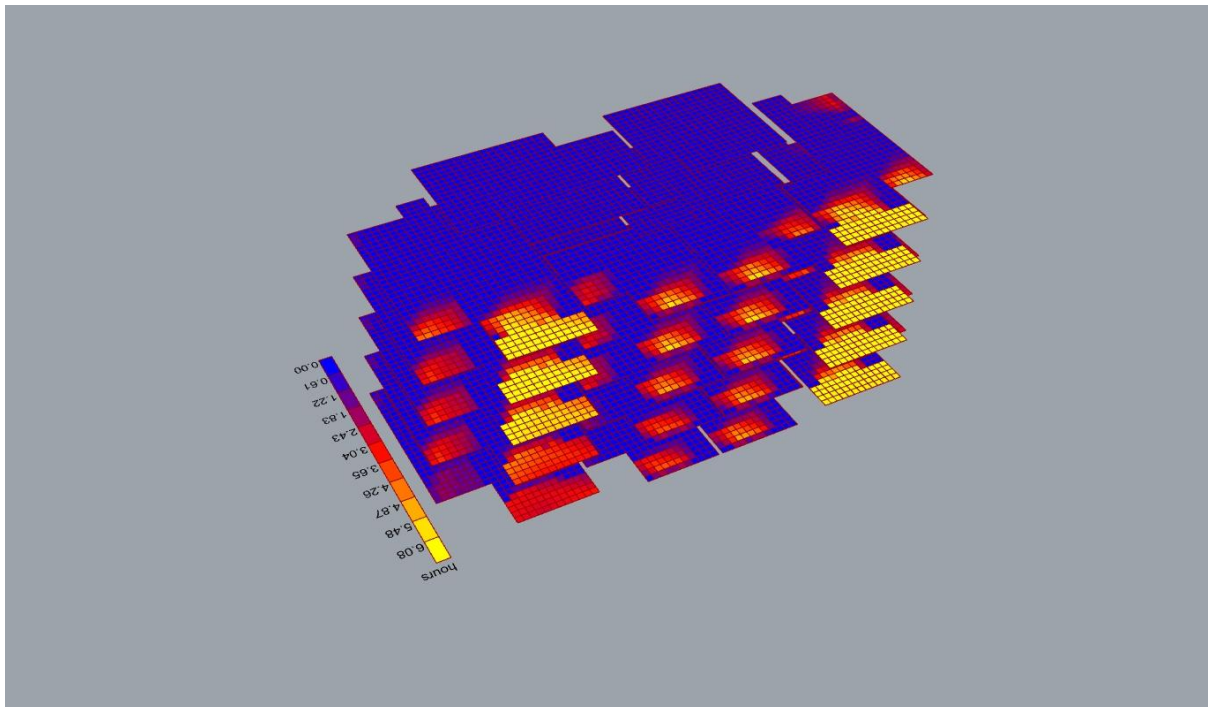

Introduction:

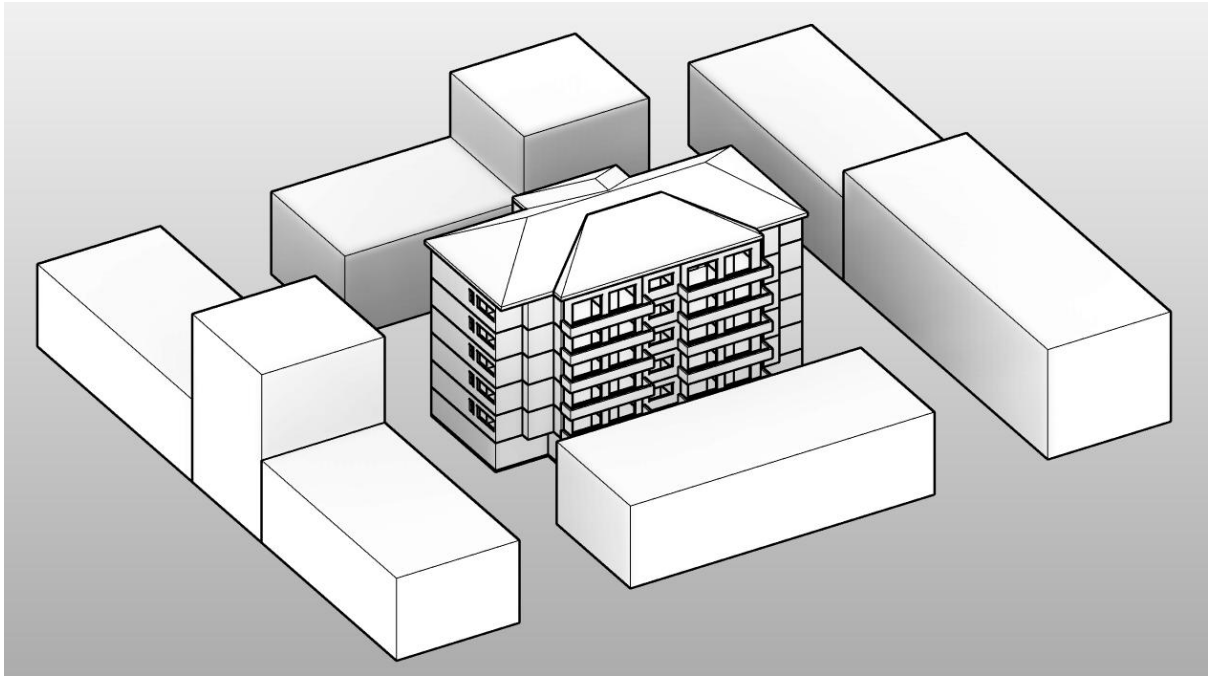

Unlikely to change very much, will add some deterministic outcomes below about the findings at high level.

A bit of context about the site, and some other information.

Methodology:

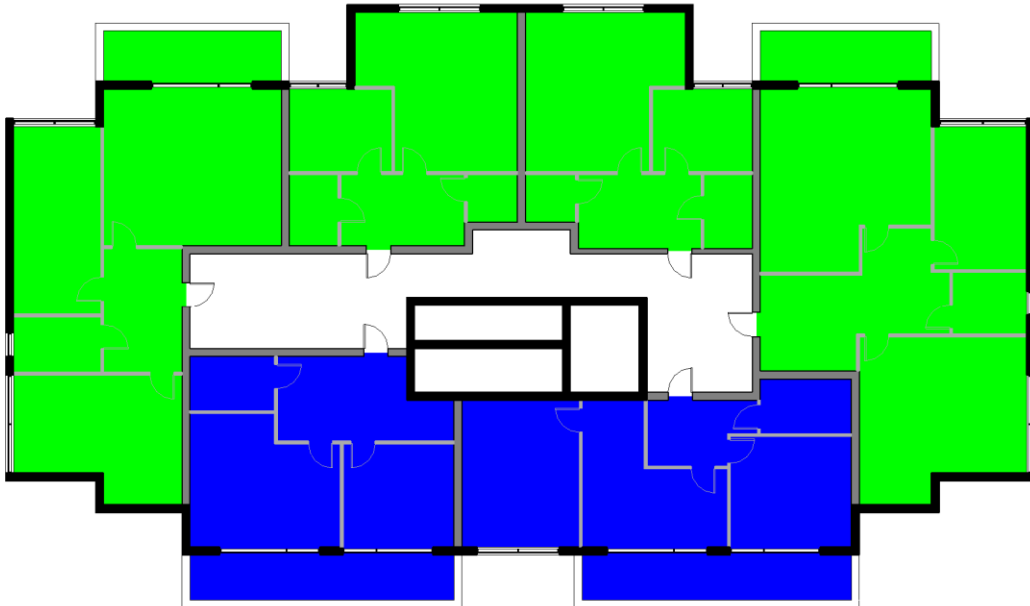

I would usually include an image of test model and screen and elaborate on them here, will add once study finishes.

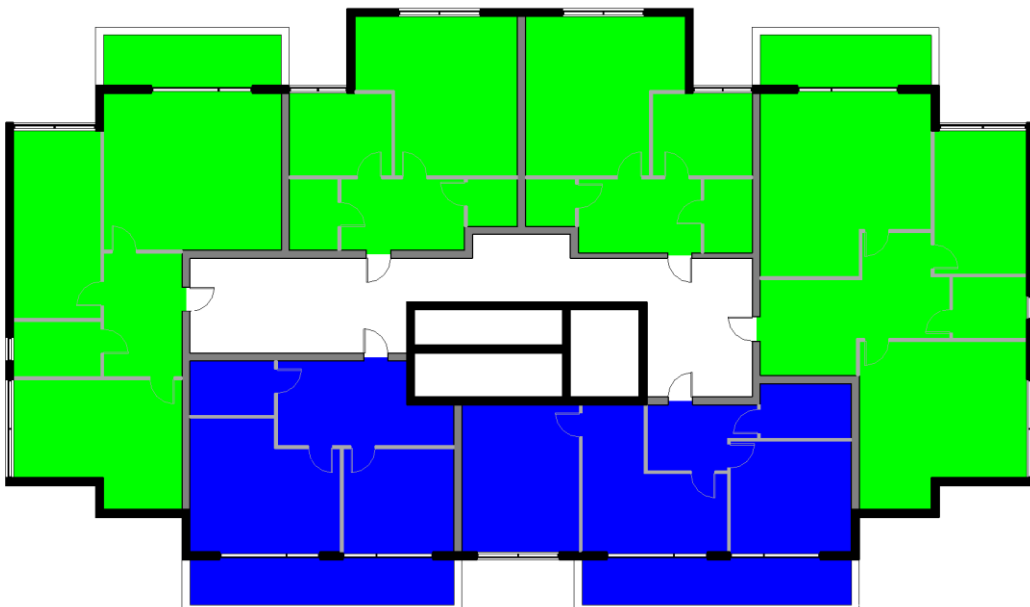

Results:

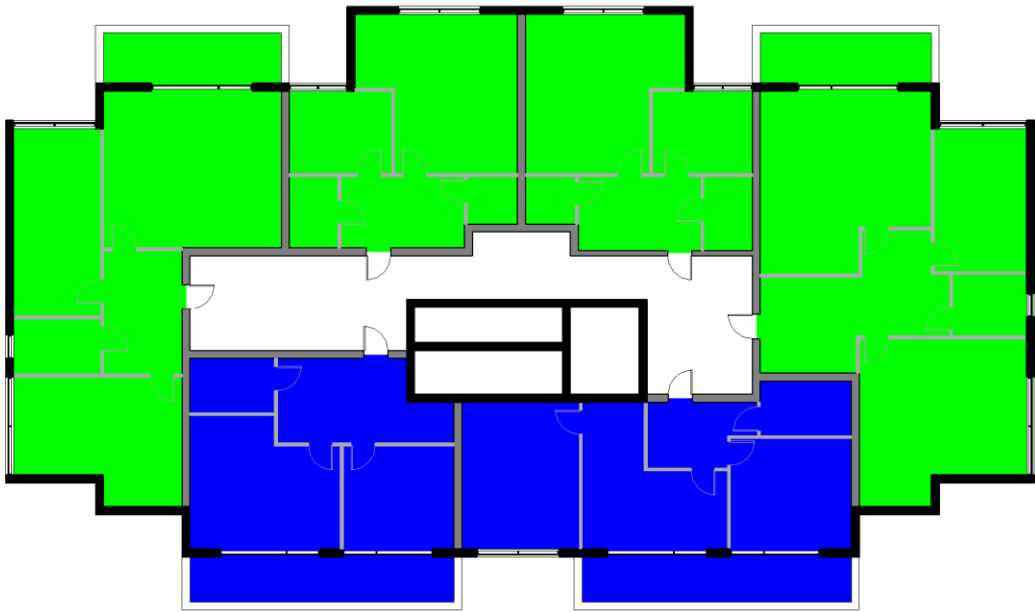

Images and summaries of the outcomes, probably a revit schedule or two.

Above: Level 1 compliance

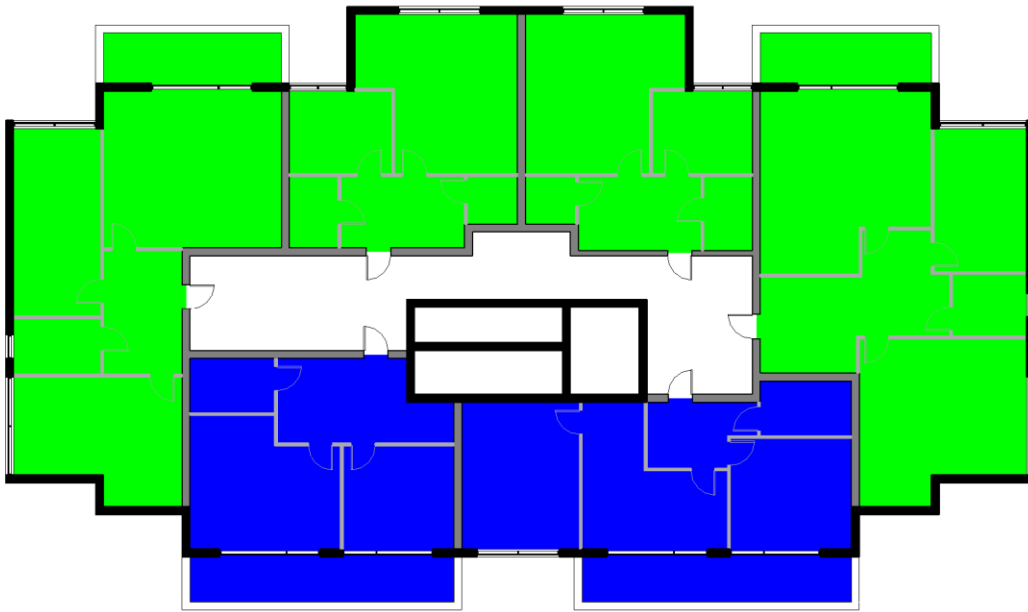

Above: Level 2 compliance

Above: Level 3 compliance

Above: Level 4 compliance

Above: Level 5 compliance

Level	Count	Complies_int	No sun
Level 1	6	4	2
Level 2	6	4	2
Level 3	6	4	2
Level 4	6	4	1
Level 5	6	4	2
Totals	30	20	9
		67%	30%
	Shortfall	(-3%)	(+15%)

Above: Table of findings

Conclusion:

In conclusion your building does not comply and you should feel bad. Good thing the council doesn't understand the requirements anyway!
